

WATERLOO REGION HOME BUILDERS' ASSOCIATION

RESOLUTION of WRHBA Board of Directors

September 24th 2009 Board of Directors Meeting

WRHBA Advocacy of Individual Member's Special Interests

Whereas: The operating By-Law of the Association contains a Mission Statement including the promotion of matters and policies to benefit its members in regard to the home building industry;

And Whereas: Many members of the association are involved in activities and advocacy with a view to general betterment of the community by way of charitable fund-raising or otherwise which are not generally related to the home building industry;

And Whereas: The Association generally is supportive in principle of its member's participation in such activities;

And Whereas: The Association has from time to time been asked to promote or otherwise be involved in promotion of such activities on behalf of its individual members;

And Whereas: The Association is selective and discriminatory in the nature of its advocacy activities or information it disseminates amongst its members, and wishes at all times to exercise an even hand in selecting the information it disseminates or issues it advocates on, to or amongst its members;

And Whereas: The Association is of the view that advocacy or other manner of involvement by the Association in non-industry related activities engaged in by its individual members, without evaluating the merit of engagement in such activities by its members, does not fall within its Mission Statement;

Therefore be it resolved that: The Association adopts a policy that it abstains from advocating with or disseminating information to its membership, concerning non industry related matters engaged in by individual members of the Association.
