

## **RenoMark™ - Renovator's Mark of Excellence**

Throughout the last few weeks, the Waterloo Region Home Builders' Association (WRHBA) has been proud to provide information on our Ray of Hope renovation project in partnership with Conestoga College.

WRHBA's dedicated renovator council members have been instrumental in all aspects of this community focused renovation, several of which work under the **RenoMark™** brand. In 2001, the RenoMark™ program was developed to provide homeowners with a benchmark to evaluate professional standards of renovation, bring credibility to member renovators within the industry and to provide a website for homeowners renovation needs. With over 40 local markets and nine provinces, coast to coast - RenoMark™ has become the renovator's mark of excellence!

WRHBA adopted the RenoMark™ brand in 2009. Since that time, all renovator member companies are required to hold a dual membership and abide by the Canadian Home Builders' Association code of ethics as well as a renovation specific code of conduct that includes providing written contracts, offering a two-year warranty and carrying a minimum of \$2 million in liability insurance. Companies that are interested in working under the brand are screened prior to being accepted as a RenoMark™ member and once a member they are constantly exposed to information on current trends, the latest materials and new regulations.

Simply put, the RenoMark™ program can distinguish the pros from the not-so-pros, and through the RenoMark™ website consumers can connect with pros that strive for that higher level and who understand the value of customer service during and following projects.

If you are thinking about undertaking a renovation, please consider the following upstanding and reputable companies:

*Since 1946, the Waterloo Region Home Builders' Association (WRHBA) has been "the voice of residential development and construction industry"—one of the most vital and enterprising industries in Canada. WRHBA represents over 220 member companies comprised of all disciplines involved in residential construction. WRHBA is built on a vision to be a leader in supporting our industry by fostering a vital membership through advocacy, resource sharing and education and in its commitment to improve new housing affordability and choice for new home purchasers and renovation consumers through positively impacting legislation, regulation and policy that affect the industry at all levels of government.*
